RESEARCH & GRIT

Practical engineering. Field-ready thinking.

From application review and material selection to prototypes, packaging and repeatable production.

ULTRALIGHT PORTABLE PIPE VISE

MODEL RG-PV01

INTERNAL REFERENCE IMAGE

A compact aluminum holding platform for assembly, prefabrication, soldering and light-duty service work.

WORKING RANGE	1/8-1.5 in pipe; up to 1 in fittings
MATERIAL	Aluminum alloy
NET WEIGHT	1.25 kg
PROGRAM	OEM / ODM AVAILABLE

PIPE ALIGNMENT CLAMP

MODEL RG-PA60

INTERNAL REFERENCE IMAGE

Heavy-duty external alignment for secure welding fit-up and flange assembly.

WORKING RANGE	2-6 in pipe
MATERIAL	Stainless steel
NET WEIGHT	4.99 kg
PROGRAM	OEM / ODM AVAILABLE

INTERNAL PIPE FIT-UP CLAMP

MODEL RG-SA480

INTERNAL REFERENCE IMAGE

Internal alignment engineered for accurate pipe-to-pipe and pipe-to-flange preparation.

WORKING RANGE	4 in supplied configuration
MATERIAL	Stainless steel
NET WEIGHT	2.70 kg
PROGRAM	OEM / ODM AVAILABLE

MAGNETIC FLANGE ALIGNER

MODEL RG-CH300

Magnetic positioning, leveling and marking support for ferrous flanges in fabrication and installation.

WORKING RANGE	2-10 in marking range
MATERIAL	Industrial magnetic assembly
NET WEIGHT	1.07 kg
PROGRAM	OEM / ODM AVAILABLE

POWER-ASSISTED STANDING SEAM SEAMER

MODEL RG-IP67

INTERNAL REFERENCE IMAGE

Cordless power-assisted seaming for professional standing-seam roofing and facade installation.

WORKING RANGE	1 and 1.5 in seam profiles
MATERIAL	Multi-metal compatible
NET WEIGHT	4.08 kg
PROGRAM	OEM / ODM AVAILABLE

OEM / ODM TOOL DEVELOPMENT

LET'S BUILD THE NEXT TOOL.

Bring us a drawing, an existing tool, or a field problem. We help shape it into a practical product ready for your market.
